

Case Study Food Processor

Client: A large processor of fresh food products, supplying National and Regional Grocery Chains throughout the United States. Client requires a constant flow of innovation of packaging materials and automation of packaging lines. Client requires inventory management of 600+ sku's and daily deliveries of approximately 65 sku's.

Challenge

- Increase production speeds
 - Reduce labor costs
 - Reduce packaging changeover times
-

Approach

- Work directly with Management Team and Line Leaders
 - Identify, Assess, and Remove all Obstacles
-

Results

- Automated Process
 - Increased line speeds by 67%+
 - Significantly reduced labor costs
 - Reduced changeover times from 30 minutes to under 5 minutes
-
